VOLUNTEERING EXPERIENCE

Software Team
ECAST

📅 February 2022 – Present   📍 Thapathali Campus

- Co-ordinate software related activities

Content writing
Vertex Hacks, Chapter Alpha

📅 September 2022 – Present   📍 Thapathali Campus

- Content writing for advertising events

PROJECTS

Library Management System
Little Angels' School

📅 May 2017 - February 2018

It is a Q-BASIC based application program. This application allows librarians and students to issue books, return books to library. This application is also able to calculate fines if returned late or damaged or lost.

Libmax - Library Management System
Thapathali Campus

📅 May 2021 - September 2021

It is a C language based application. It is an improvised version of the previous project. In this project, additionally, the book codes are automatically generated. Also, the number of similar books are recorded.

Hostel Finder
Thapathali Campus

📅 May 2022 - September 2022

It is a GUI based application. Using this application, hostel owners can add their hostel on the software, so that it gets advertised. Hostel seekers can also search for hostels near the required on the basis of rooms, facilities, etc.

Nepali Spelling Correction Using Transformer Model
Thapathali Campus

📅 November 2023 - April 2024

The project is NLP based project on the Nepali language. The main aim of the project was to correct the word level errors of Nepali language. It compares the incorrect words correction capabilities.

MY LIFE PHILOSOPHY

A person can do things if he wishes.

ACHIEVEMENTS

Student of the year 2074 - Little Angels´ School
